## Steam Table Pans Récipients pour table à vapeur

Available in 22, 24 and 25 gauge stainless steel.

Disponible en acier inoxydable de calibre 22, 24 et 25.

18-8 stainless steel pans will not jam together during storage. Double reinforced corners and unique impact resistant edge design help pans hold shape even under the toughest conditions. Maintain a tight seal for better temperature retention. Full shoulder around pan prevents jamming during storage; tapered pans fit standard food pan templates and will stack or nest with most other leading brands for convenient storage. Spoonable bottom maximizes serving yield and makes pans easy to clean. Versatile stainless steel food pans go from freezer to oven to serving line; ideal for cook-chill operations. NSF Listed.

Ces pannes en acier inoxydable 18-8 ne se coincent pas pendant le stockage. Les angles renforcés doubles et la conception unique de bordure résistent aux chocs contribuent à la mise en forme même dans les conditions les plus difficiles. Maintenir un joint ébrunche pour une meilleure conservation de la température. L'épaule complète autour de la casserole évite le brouillage pendant le stockage; les coussins coniques s'adaptent aux modèles de panneaux alimentaires standard et empilent ou nichent avec la plupart des autres marques de premier plan pour un stockage pratique. Le fond arrondi maximise le rendement en service et facilite le nettoyage. Ces pannes polyvalentes, en acier inoxydable, vont du congélateur au four, et à la ligne de service; idéal pour les opérations de "cook-chill"
