## CHARBROILER FEATURES

### STEEL TUBE BURNER

Tubular steel burners offer excellent and reliable performance at an economical price. Available in Toastmaster charbroilers, models have one (1) burner per 12"

### CAST IRON GRATES

All Star and Toastmaster charbroilers come with heavy-duty cast iron grates. Incline or lay flat to optimize your cooking surface

### CAST IRON BURNER

Cast Iron burners are ten times heavier & thicker than sheet metal burners, cast iron burners offer performance and durability in the most corrosive kitchen environments.

- One (1) burner per 12" for Star-Max models
- Two (2) burners per 12' for Ultra-Max models

### RADIANT STYLE

Charbroiler radiants protect the burners from debris and they ensure a more uniform temperature profile. Star-Max and Toastmaster heavy gage sheet metal radiants can last for years, and the uniquely durable Lang and Ultra-Max steel alloy radiants may last the life of your charbroiler

### LAVA ROCK

Lava rocks function as a radiant for the entire burner array and diffuse the heat generated by the burners effectively. Cooking surface temperature profiles can be modified by positioning the rock, and flavor profiles may vary depending on use
